SMALL SYSTEM OPERATOR TRAINING:

Achieve & Maintain Compliance with the SWDA

FREE RCAP/AWWA Workshop for Small Water Systems

American Water Works Association ConnecticutSection

ONLINE Workshop via GoToTraining

February 13, 2024 (8:30 a.m. – noon) (ET)
February 14, 2024 (8:30 a.m. – noon) (ET)

(Registrants must attend both days to earn credits)

REGISTER online: CT Section AWWA - Meeting/Event Information (ctawwa.org)

Learn more about water quality improvement techniques, contaminants of concern, small systems resilience, and steps your system can take to avoid costly violations! Your utility faces day-to-day challenges in providing reliable, safe drinking water for your customers. The Rural Community Assistance Partnership (RCAP) in conjunction with the American Water WorksAssociation (AWWA) is offering this online training for water operators and managers.

Workshop Topics:

SDWA Regulatory Overview		Distribution System Flushing
Large Building Water Quality Issues		Contaminant of Concern-Manganese
Main Breaks/Cross Connections		Cyanotoxins

CEU's: Approved CT DPH for 6 CEU's (approval pending). Must attend both sessions to be eligible for CEU's.
Audience: Operators, managers, and boards of small systems
A unique email address and 1 computer per registrant are required for credit.
Students will receive GoToTraining login info and class materials within 1 week prior to the workshop.
Please direct questions to Ted Meckes @ AWWA Training Services: tmecckes@awwa.org
